Philosophy And Economics

Marx' philosophy. Once you understand Marx' thinking, it becomes easier to understand where and how he got his economic ideas. The tone is even and professorial throughout the book. There is no attempt to persuade the reader toward or away from Marxism; Sowell simply explains it. However, no objective reader will come away convinced that Marx was right

Marxism, a body of doctrine developed by Karl Marx and, to a lesser extent, by Friedrich Engels in the mid-19th century. It originally consisted of three related ideas: a philosophical anthropology, a theory of history, and an economic and political program. There is also Marxism as it has been understood and practiced by the various socialist
