Maxxforce 7 Engine Problems

According to CCJ Digital, lawsuits filed against Navistar-International, the company that makes MaxxForce engines, claim multiple problems with the MaxxStar engines that Navistar concealed from buyers. The lawsuit claims that the engines could not handle the heat and pressure they generate, causing exhaust leaks and EGR cooler failures.

What Are Some MaxxForce 7 Problems? - Reference.com

After running some tests we found a low compression problem on the # 2 cylinder. This has happened to a few of the maxxforce 7 diesel engines in our fleet already. The lack of compression caused by excessive engine wear turned into an engine replacement which luckily for us was covered by

warranty.

Meko Brown May 31, 2020 . I have a 2010 international 4300 with a maxxforce engine in it. I bought it from a guy in Baltimore in December 2019. Been having problems with it from the start.

Navistar Settles Class Action Over Faulty MaxxForce Engines

The power stroke, specifically the 6.4L and the "Son of Powerstroke" the Maxxforce 7 have a reputation for early failure. Past 40,000 to 60,000 miles you may be on borrowed time. The failure progression as service manager explained it to me is

Powerstroke and Maxxforce 7, WHY? - Engine & fuel ...

Maxxforce 7 Turbocharger Failure - Common Problems. While turbo failure on any vehicle is enevitable after many miles and years of service, the Maxxforce 7 has unique issues that cause turbo failure more often than other engines. The biggest culprits behind a failed turbo on a Maxxforce 7 engine are EGR related issues, and oil dilution.

Maxxforce 7 Turbocharger Failure - Common Problems ...

The MaxxForce 7 is a V8 and as you saw in the video has a lot of hardware attached to the basic block with the remote mounted Bendix air compressor included. 3 of these buses have had failed high pressure fuel pumps. The engine oil gets diluted and reduces oil pressure.

Maxxforce 7 Engine Problems - Orris

I have had this engine in my Breeze for 16 months and 14,000 miles with no problem or issue. From reading the Tiffin forum, no other owners have had any major problems with this engine. All the comments seem to be coming from people who do not own this engine. I believe the OP wanted actual experience with this engine.

I hade a 2013 international maxxforce Navistar engine , worst mistake I ever made in business , its stay in the shop , spend over 15.000 dollars trying to fix ,and still can't get it right.they test this and test that put this part on and charge you and that don't fix the problem you grt a big bill and truck still not fixed.

How Navistar solved its EGR problems - Truck News

Yes, MAXXFORCE 7 engines, we have worked with the engine group with these problems. We ran some test buses for them. after several calibration attempts they came out with a calibration they thought would fix the problem, and it has on several units. But I still have some that are putting fuel in the oil.

Maxxforce 7 fuel in oil - MHH AUTO - Page 1

Maxxforce engines were supposed to free International from the hassles of dealing with outside suppliers. Building engines in house make sense as the profits stay in house. If you make your own engines you are not at the mercy of an outside vendor who can idle your production lines when they experience problems of their own.
