(PDF) Spiritual Development in Children and Adolescents

Religion and spirituality may be important coping mechanisms. Coping is defined as the thoughts and actions performed in response to stressful situations (Lazarus & Folkman, 1984). Religiosity and spirituality offer potentially effective ways of coping for children and adults, an idea that is recognized by adolescents (Sveidqvist et al., 2003).

The religiosity and spirituality scale for youth ...

For those adolescents and emerging adults who are more religious, more time is spent within a supportive community that values self-worth and promotes self-efficacy (Regnerus, 2003) as well as offers support with coping (Pargament, 1990); these may be valuable in adapting to the many changes and challenges experienced by adolescents and emerging adults.

The relationship between spirituality and religiosity on ...

Spirituality is a broad concept that focuses on the connection of the self to something bigger. It deals with existential questions like our place in the universe and the meaning of life. It is an aspect of being human where people seek to understand the way they connect to the moment, to themselves, to others, to nature, and to the sacred.
