Weekend Craft - blogger, crafter, graphic designer & DIY ...

Nail polish marbling dries quickly, and there's less mess because you don't have to scrape away the shaving cream. Nail polish is a little more permanent, which makes this a great technique for marbling more than just paper, but it may also make this method less ideal for kids. Either way, make sure your craft space is well-ventilated.

Amazon.com: Customer reviews: The Weekend Crafter ...

Your pattern doesn't have to be perfect - don't worry about "marbling" the shaving cream too much. It will do all it's marbling magic on its own. Place the paper, tape side up, onto the shaving cream. Use your fingers to gently press down the paper so that as much of it makes contact with the shaving cream as possible.

What To Do Step 1: Fill your jar or bowl with water to a few centimetres below the rim. Step 2: Open up all your nail polish bottles and drop one drop of each colour into the water, randomly wherever you want. Repeat again, adding drops on top of other drops, to make the top of the water full of colour. Step 3: Use a toothpick to swirl into the nail polish, creating designs across the top.
